1) The income statements for the three months ended 31st March, 2016 (the **Interim Income Statements**) reflect the new business structure adopted by SEB following the Reorganisation (as defined below), while the income statements for the years ended 31st December, 2015 and 2014 (the **Year End Income Statements**) reflect the previous business structure. As a result of the Reorganisation, the line item net life insurance income included in the Year End Income Statements has been reallocated in the Interim Income Statements to net fee and commission income, net financial income and net other income. The deferred acquisition costs within the Life business are now part of net fee and commission income and are no longer reported as operating expenses, in line with market practice.

| | | Notes may be redeemed early if specified in the applicable Final Terms (including at any time during the period commencing on (and including) the day that is 90 days prior to the maturity date) and, in the case of MTNs, for tax reasons. Subordinated Notes may also be redeemed early in certain circumstances, if specified in the applicable Final Terms in the case of Senior Subordinated Notes, resulting in Senior Subordinated Notes being fully excluded from inclusion in the eligible liabilities of the Bank pursuant to minimum own funds and eligible liability requirements under the European bank recovery and resolution directive (Directive 2014/59/EU) (the BRRD) or, as applicable, Tier 2 Subordinated Notes being fully excluded from inclusion in the Tier 2 capital of the Bank. |
| | | Extended Maturity Date |
| | | The applicable Final Terms may also specify that if the Bank fails to redeem the relevant Notes in full on the maturity date (or within two business days thereafter), the maturity of the nominal amount outstanding of the Notes not redeemed will automatically extend on a monthly basis up to but, not later than, the extended maturity date specified in the applicable Final Terms. In that event the Bank may redeem all or any part of the nominal amount outstanding of the Notes on an interest payment date falling in any month after the maturity date up to and including the extended maturity date or as otherwise provided for in the applicable Final Terms. Such extension of the maturity date of the Notes will not result in any right of holders of the Notes to accelerate payments or take action against the Bank. |

| Element | Title | | |
|---------|------------------------------------|--|--|
| D.2 | Key risks regarding the Bank | In purchasing Notes, investors assume the risk that the Bank may become insolvent or otherwise be unable to make all payments due in respect of the Notes. There is a wide range of factors which individually or together could result in the Bank becoming unable to make all payments due in respect of the Notes. It is not possible to identify all such factors or to determine which factors are most likely to occur, as the Bank may not be aware of all relevant factors and certain factors which it currently deems not to be material may become material as a result of the occurrence of events outside the Bank's control. The Bank has identified a number of factors which could materially adversely affect its business and ability to make payments due under the Notes. These factors include: | |
| | | SEB's business, earnings and results of operations are materially affected by conditions in the global and regional financial markets and by global and regional economic conditions; | |
| | | SEB remains exposed to the risk of increased credit provisioning; | |
| | | SEB is exposed to declining property values on the collateral supporting residential and commercial real estate lending; | |
| | | market fluctuations and volatility may adversely affect the value of SEB's securities portfolio, reduce its business activities and make it more difficult to assess the fair value of certain of its assets; | |
| | | SEB is subject to the risk that liquidity may not always be readily available; | |
| | | SEB's borrowing costs and its access to the debt capital markets depend significantly on its credit ratings; | |
| | | SEB could be negatively affected by the soundness or the perceived soundness of other financial institutions and counterparties; | |
| | | SEB will be subject to increased capital requirements and standards due to new governmental or regulatory requirements and changes in perceived levels of adequate capitalisation, and may also need additional capital in the future due to worsening economic conditions, which capital may be difficult to obtain; | |
| | | effective management of SEB's capital is critical to its ability to operate and grow its business; | |
| | | volatility in interest rates has affected and will continue to affect SEB's business; | |

| | | • | SEB's guidelines and policies for risk management may prove inadequate for the risks faced by its businesses; |
